SKILLS

- **Languages:** C++, Python, SQL
- **Frameworks:** NumPy, Pandas, Matplotlib, Seaborn
- **Tools/Platforms:** Power BI, Excel, Jupyter Notebook, Git & GitHub
- **Soft Skills:** Analytical thinking, Adaptability & Continuous Learning

PROJECTS

- **Hospital Emergency Room Dashboard | [Link](#)** Nov' 25
 - Designed and developed an interactive Hospital Emergency Room Dashboard using Power BI to analyze patient flow, waiting time, satisfaction scores, and admission trends.
 - Performed data cleaning, transformation, and modeling to create dynamic KPIs including total patients, average wait time, patient satisfaction score, and referral analysis.
 - Built Monthly View, Consolidated View, and Patient-Level Detail reports with drill-down capabilities for demographic analysis (age, gender, race, department referral, hourly trends).
 - Enabled data-driven decision-making by identifying operational bottlenecks, improving ER efficiency, and supporting hospital administration with actionable insights.
- **Sales Performance Analytics Dashboard | [Link](#)** Feb' 25
 - Engineered an interactive Excel analytics dashboard to analyze 5,000+ sales records and uncover performance trends across regions, order priorities, product categories, and sales channels.
 - Leveraged Excel charts, pivot tables, slicers, Power Query, and data modeling techniques to create dynamic comparisons of revenue, cost, profit, product performance, and yearly trends.
 - Enhanced decision-making by providing real-time insights into top customers, high-volume products, sales channels, and seasonal performance patterns.

TRAINING

- **Cipher School | Python Programming Language with OOPs | [Link](#)** May' 25-Jul' 25
 - Completed hands-on Python development training covering core programming concepts, OOP, file handling, libraries, and real-world coding practices.
 - Built a functional project as part of the course, applying learned concepts to enhance practical problem-solving and development experience.

CERTIFICATION

- The Ultimate Data Science Course by CodeWithHarry | [Link](#) Sep' 25
- Database Structures and Management with MySQL by Meta | [Link](#) Apr' 24
- Introduction to Python by Infosys Springboard | [Link](#) Feb' 24

EXTRA CURRICULAR

- 4 Data Science Mini Projects
- Achieved 5★ in C++ on HackerRank

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; Current CGPA: 7.4 Aug' 23 - Present
- **New Era Public School** Bihar, India
Intermediate; Percentage: 79.4% Apr' 22 – Mar' 23
- **Notre Dame Academy** Bihar, India
Matriculation; Percentage: 86% Apr' 20 – Mar' 21
